Introduction

The growing significance of website for various organizations is well known. In organizing that, we decided to develop a website for our college which comprises of history of college. In this website, we have provided an option of “Admission Form” for students. From this option, he / she can fill the admission form. He /she can also check his roll no. from our website. We have also made an “Admin Portal” especially for admin so that only admin can view the record and can edit the student’s details.

Need of the Project

Earlier, students had to go to college to fill the admission form. As you all know: Many students used to go to the college to submit the admission form, due to which the students had to wait a lot. In view of all these problems, we thought of making the college website in which we have also provided the admission form so that students do not have to go to college to fill the admission form and by sitting at home they can fill their admission form online which will save their time.

Software /Technology Requirements Specifications

- **Software Requirement**

- Operating system :- Windows 10
- Database :- MySQL(5.1.0)
- Browser :- Chrome

- **Hardware Requirement**

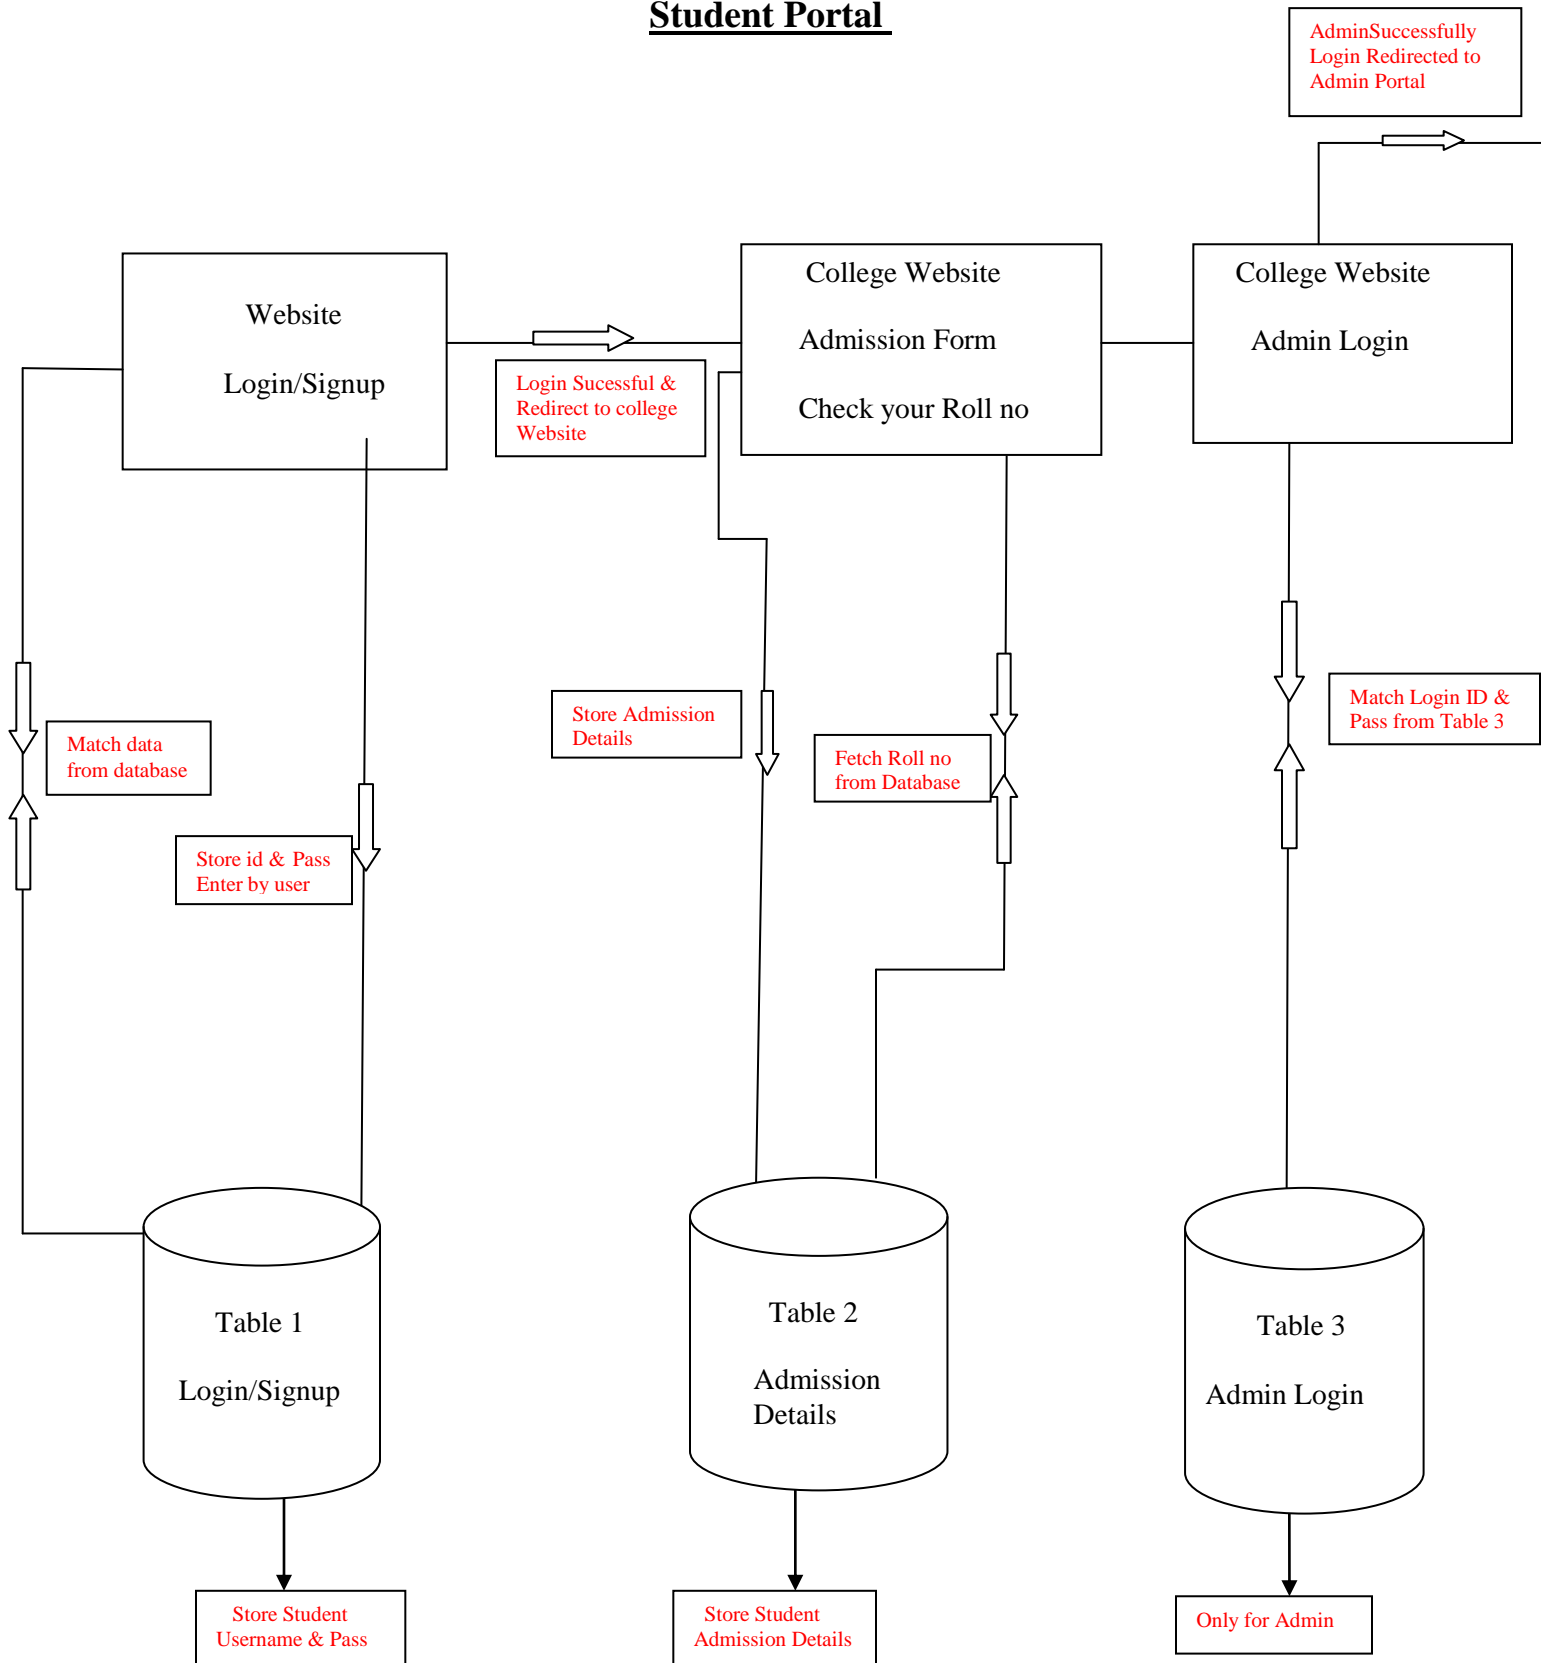

- Processor :- Intel CORE i5 8th Gen
- RAM :- 8GB
- Hard Disk :- 1TB

- **Language Used**

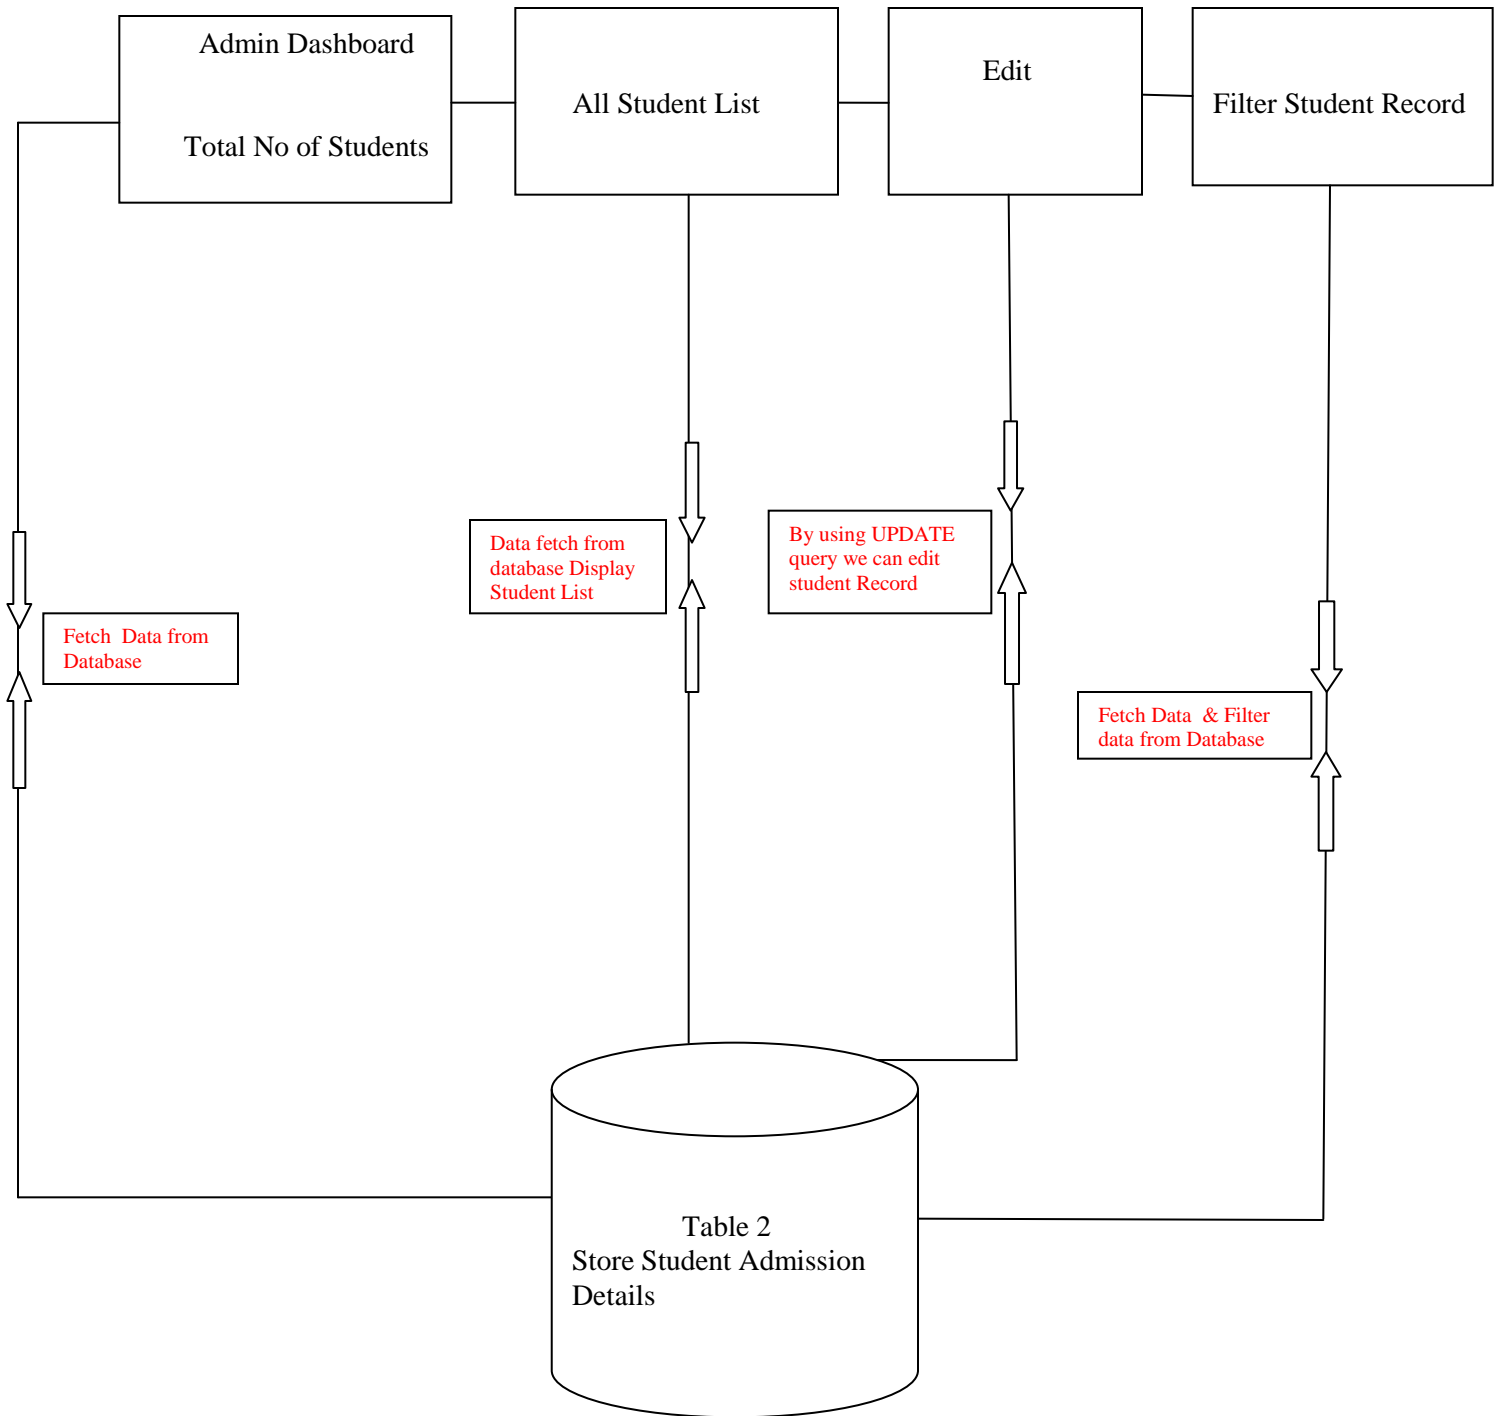

- Frontend :- HTML , CSS
- Backend :- PHP , SQL

➤ Admission Form

The screenshot shows the admission form page. The title "Admission Form" is centered at the top. Below the title, there are several input fields for student information: "Student name", "Father's Name", "Date of Birth" (with a placeholder "YYYY-MM-DD"), "Gender" (a dropdown menu with "Select your Gender"), "Degree" (a dropdown menu with "Select your Stream"), "Email id", "Mobile No", and "Address". At the bottom, there are two dropdown menus for "State" and "District", both with "Karnataka" selected.

Conclusion

Our college website is helpful for reduction in manual work so less manpower required and also time saving. Students' records can be accessed within few seconds. Clarity in student details. Our website primarily focuses on building an efficient and user friendly communication system for the educational institutions
